Wadsworth Residence
華茲華斯別墅

HM White Site Architects, New York

依據業主要求，別墅將賦有挑戰性地增設一個游泳池。同時，業主也意識到敏感的場地規劃要求解決一系列場地和景觀設計的諸多問題。游泳池的建造必須完全符合州及地方的環境要求和審核程序，HM White景觀建築師事務所遵從當地法規，致力於這一整體性的景觀規劃方案。對邊緣私密地帶、濕地和鄰近的沼澤環境進行了謹慎的處理，使住區具備遊樂度假特定季節的使用功能。設計師對游泳池提出各種方案的同時，還確立了一系列的景觀設計理念，從而增強主人樓和客人樓各自的獨立感，展示了場地的高原濕地和森林棲息地的生態群落特

色。濕地草甸裏，經過挑選配置的外來物種以及美國本土稠李和紅楓林的搭配，在兩座建築間融合成整體協調的連續景觀。根據技術的介入抑制了蘆葦根系的過度生長，從而給予新植入的本土植物一定的成長空間。這些在游泳池和兩座建築周圍形成配景畫框的栽植有莢蒾屬、楊梅屬、柳枝稷和野花植物。設計師採取審慎的態度引進其他本地的花草灌木和喬木，突出了這一系列戶外空間的特色。室外照明設計使小徑的縱橫清晰可辨，同時凸顯了成熟櫻花樹和楓樹不規則的風格。由此，令使用者在夜晚時分仍能感受到異彩紛呈的濱水景致。

With an ambition to add a pool, the client recognized that sensitive site planning would be required to address a myriad of site and landscape design issues. The pool would require a highly scrutinized state and local environmental review and permitting process. HM White Site Architects was engaged to develop a comprehensive landscape plan that reconciled regulatory requirements while addressing privacy edge conditions, wetland

and adjacent tidal marsh habitats as well as satisfying specific summer vacation home uses and desires. While exploring a range of pool design options, a series of landscape design principles were established to improve a sense of separation between the guest and main house and reveal the site's distinctive upland wetland forest habitat. Selective ediling of invasive and non-conforming plantings, native Choke Cherry and Red Maple groves set within wetland meadow grasses emerged as a unifying landscape typology between the two properties. Root barriers were inserted to halt Phragmites reed grass from further intrusion and allow the new

native Viburnum, Bayberry, Switch Grass and wildflower plantings to frame the pool and two house setting. Other native grasses, flowering shrubs and trees were judiciously introduced to reinforce a series of distinctive outdoor rooms. Outdoor lighting clarifies the path network and highlights the irregular character of the mature Cherry and Maple trees, extending one's connection to this diverse waterfront setting into the evening hours. ■
